SUPPLEMENT TO
REPORT NO.

25X1X

1. Members of the Workers Militia, working with the SMB, now have been ordered to make actual arrests. New identification cards are being issued which must be carried with the grey police notification card. SMB units are now exercising controls as far back as twenty kilometers from the German border.
2. Ceskomoravska Kolben Danek (CKD) at Novy Bor near Ceska Lipa (OSL/P75) was annexed by the Czech Armament Works (CSZ: Ceskoslovenska Zbrojovka) in May 1949. The plant employs approximately 500 persons. Wages have dropped and workers currently earn approximately Kcs 2,500 monthly.
3. All CKD sections working on war material are under military supervision. There are always army representatives at the plant. These officers also participate in political and security checks of new employees. The plant's political and intelligence man is J. Doubrava, chairman of the workers council, who cooperates with the police. The Workers Militia is equipped with MGs, rifles, pistols, and grenades.
4. The CKD plant is producing sheet metal containers for trip mines, clock works for time mines, bombs, and grenades, and some artillery ammunition.
